:: New CEO at Wavegen

30/01/08

Wavegen is pleased to announce the appointment of Matthew Seed as Chief Executive Officer.

A Chartered Engineer and Member of the Institution of Mechanical Engineers, Matthew has extensive experience in the energy industries, including oil and gas, power generation and renewable energy.

Matthew's professional experience includes operations, project management, business development, general management and technology commercialisation.

Matthew leads a strengthened team at Wavegen, which is planning to build on the current Mutriku project in Spain, and the ever higher profile of renewables in the energy mix for Scotland, the UK, Europe and globally.

Also in the leadership team at Wavegen are:

Tom Heath	Chief Technical Officer
David Gibb	Chief Financial Officer
David Langston	Projects & Business Development Manager

Matthew Seed
